

mPDF

Border conflict resolution in tables with border-collapse set to "collapse". mPDF follows the rules set by CSS as well as possible, but as you can see, there is some difference in interpretation of the rules:

mPDF

A 3x3 table with a cyan border. The top row has cells with '1', '1', '1'. The middle row has '1', '1', '1'. The bottom row has '1', '1', '1'. The table has a complex set of borders: a green border on the top-left, a purple border on the top-right, a red border on the bottom-left, and a blue border on the bottom-right. The borders are thick and overlap, creating a complex visual effect.

Internet Explorer
IE 9

A 3x3 table with a cyan border. The top row has cells with '1', '1', '1'. The middle row has '1', '1', '1'. The bottom row has '1', '1', '1'. The table has a complex set of borders: a green border on the top-left, a purple border on the top-right, a red border on the bottom-left, and a blue border on the bottom-right. The borders are thick and overlap, creating a complex visual effect.

Firefox
v 32.0.3
