

mPDF

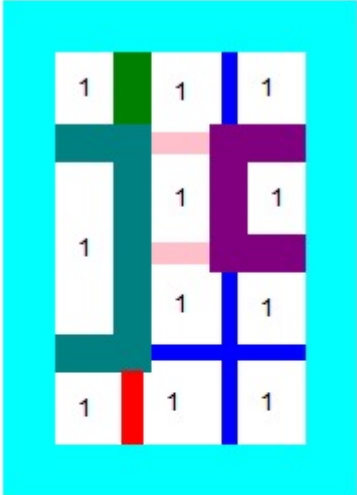

Border conflict resolution in tables with border-collapse set to "collapse". mPDF follows the rules set by CSS as well as possible, but as you can see, there is some difference in interpretation of the rules:

mPDF

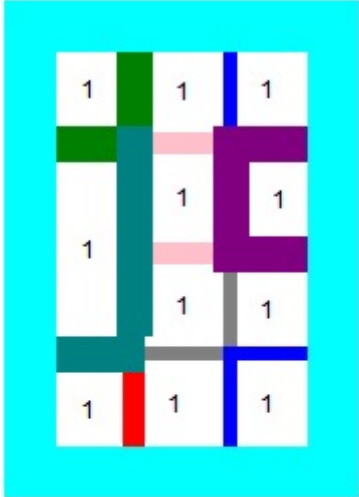

A 3x3 table with a cyan border. The top row has cells with values 1, 1, 1. The middle row has 1, 1, 1. The bottom row has 1, 1, 1. The table features several overlapping borders: a green border on the top-left, a purple border on the top-right, a red border on the bottom-left, and a blue border on the bottom-right. The borders are rendered with varying thicknesses and colors to show how mPDF resolves conflicts.

Internet Explorer
IE 9

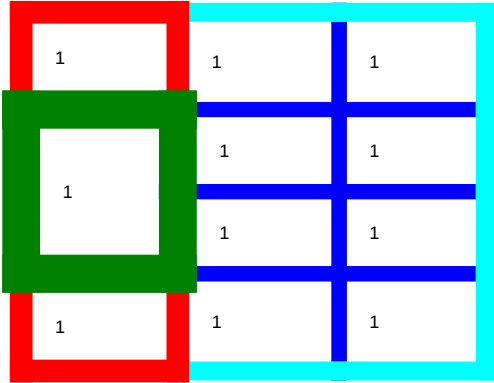

A 3x3 table with a cyan border, identical to the mPDF version. The rendering of the overlapping borders (green, purple, red, blue) differs from mPDF, showing a different interpretation of the border-collapse rules.

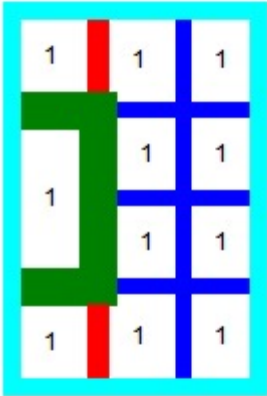

Firefox
v 32.0.3

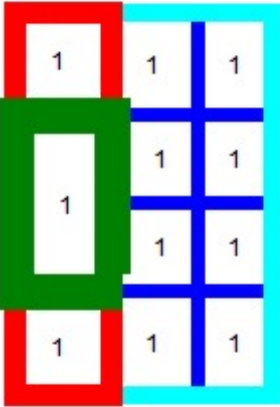

A 3x3 table with a cyan border, identical to the mPDF version. The rendering of the overlapping borders (green, purple, red, blue) differs from mPDF, showing a different interpretation of the border-collapse rules.

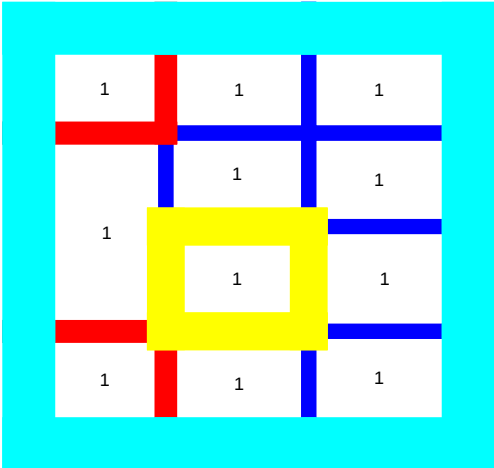

A 3x3 table with a cyan border. The top row has cells with values 1, 1, 1. The middle row has 1, 1, 1. The bottom row has 1, 1, 1. The table features several overlapping borders: a green border on the top-left, a purple border on the top-right, a red border on the bottom-left, and a blue border on the bottom-right. The borders are rendered with varying thicknesses and colors to show how mPDF resolves conflicts.
